### ABOUT ME

Aspiring Frontend Developer with a solid foundation in HTML, CSS, and JavaScript, currently enhancing my expertise in React. My journey into web development began with a web-based order management system, sparking my passion for coding and responsive design. I've built several personal projects, showcasing my ability to create user-friendly, responsive websites. As I continue to learn React and modern frontend technologies, I'm excited to apply my skills in a real-world environment and contribute to building engaging, interactive user interfaces. Eager to bring a fresh perspective and make a meaningful impact.
